

Expression thru Innovation

C92 / D90

CADLive is designed to outperform your expectations and deliver exceptional performance. Engineered to complement the new generation of exceptional sound systems – The CADLive series of products taps our Equitek studio heritage along with our live sound know-how in creating an impactful and easy-to-use line of mics.

The **CADLive C92** Cardioid Condenser handheld mic is outfitted with a TrueFlex™ Equitek diaphragm engineered to create a hot and articulate live performance vocal microphone. Engineered for smooth, transparent, articulate lead vocal reproduction with superior handling noise suppression in a durable and road-ready design.

- TrueFlex™ Equitek diaphragm for extraordinary reproduction
- Internal dampening for superior Handling Noise suppression
- Smooth, Transparent, Articulate lead vocal performance

The **CADLive D90** supercardioid dynamic handheld mic is outfitted with a Trueflex™ diaphragm and PowerGap™ high gauss neodymium magnets creating a hot and articulate live performance vocal microphone. Engineered for smooth, articulate lead vocal performance in a durable and road-ready design.

- TrueFlex™ diaphragm for articulate response
- PowerGap™ Neodymium magnet for hot signal
- Smooth & Articulate lead vocal performance

Specs : C92

Pattern: Cardioid
Principle: Equitek Condenser Capsule
Frequency Response : 20 – 20kHz
Sensitivity : -40.0 dBV (10mV) @ 1PA
Impedance : 150 Ohm
Max SPL >138dB

Specs : D90

Pattern: Supercardioid
Principle: Dynamic moving coil motor
Frequency Response : 50 – 16kHz
Sensitivity : -51 dBV (2.8mV) @ 1PA
Impedance : 500 Ohm
Max SPL >150dB
